## How to configure Photoshop to work with action

- **Make sure you are using the English version of Photoshop.**
  - **Use the RGB Mode and 8 Bits color.**  
To check these settings, go to Image ---> Mode and check the “RGB color” and “8 Bits/Channel”.
  - **Make sure that the option “Add ‘copy’ to Copied Layers and Groups” and “Use Default Masks on Fill Layers” is turned on.**  
On the “LAYERS” panel, click on the menu icon, go to “Panel Options...” and check that the “Add ‘copy’ to Copied Layers and Groups” is turned on. “Use Default Masks on Fill Layers” is turned on.
- 

## Image size

- **For good quality output, it is recommended to use photos in the range of 1000px - 2500px.**

## PLEASE TAKE A NOTE

**When using the action, you can get 2040px or 4080px height output image of your choice.**

---

## How to install the action

1. Double click on "Lomography Action.atn" file to load it inside Photoshop CC.
- 

## How to install the pattern

1. Drag and drop “Pattern Shapes Lomography” file inside **Photoshop CC 2020**

### Photoshop CC 2015

1. Go to Edit ---> Preset Manager.
  2. Choose “Patterns” from the Preset Type drop-down menu.
  3. Press the Load button on the right.
  4. Locate your “Pattern Shapes Lomography” Photoshop pattern file on your computer (it should have a file extension of .pat).
- 

## How to use the action

1. Be sure your photo layer is set as the “Background” locked layer; (Layer ---> New ---> Background from Layer)  
**Only the “Background” layer should be presented. There is no need to draw the mask on the additional "AREA" layer.**
2. Click play on the action selected in the action panel, and follow the instructions.. (Window ---> Actions)
3. After the action is finished, you can move around each design layer as you wish.
