How To Install Adobe Camera Raw Presets

1- Press the Windows key + R

2- In the run window put "appdata" (without the quotes)

3- Go to Roaming> Adobe> CameraRaw> Settings

4- Copy the actions that you downloaded and paste them in that folder "Settings"

5- Start Photoshop

6- Go to Filter> Camera Raw Filter

7- The actions will be in the "Presets" tab ready to use!
