Your support is highly appreciated

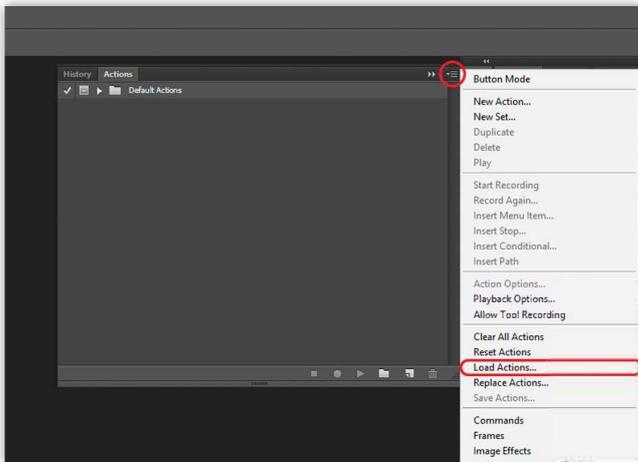

# HOW TO INSTALL THE ACTION

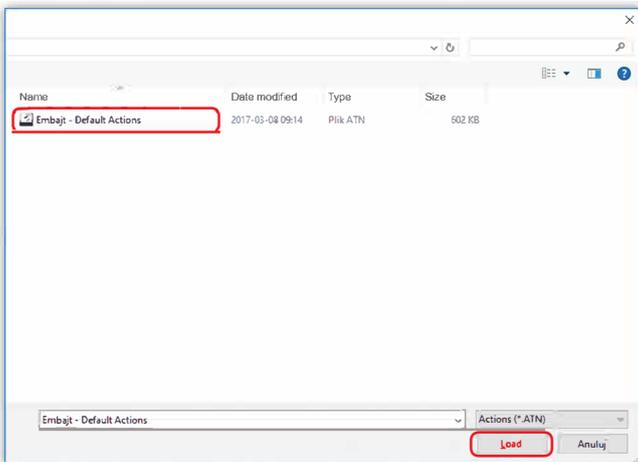

## STEP 1

Run your photoshop and open the action palette. Go to Menu bar, choose: Window > Action.

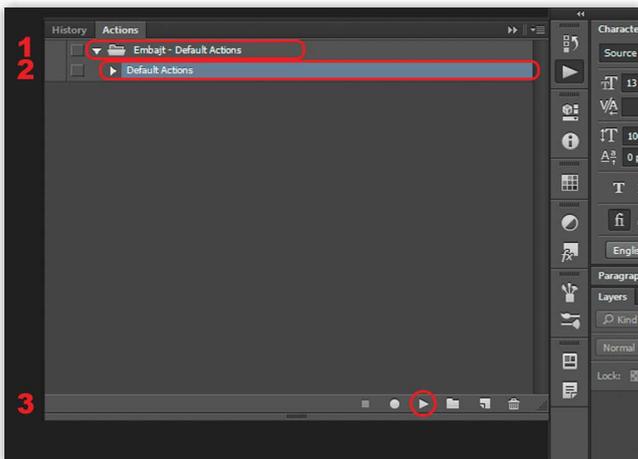

## STEP 2

Go to action palette. Click the small dropdown icon on the top right corner (see rounded red below) to open the dropdown menu

## STEP 3

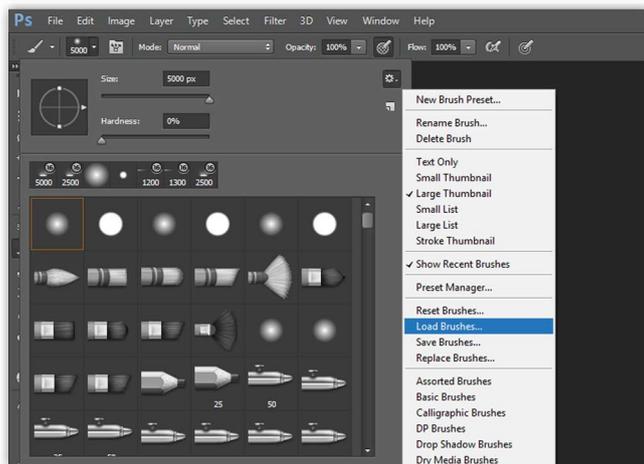

Find the action you want to install on your computer. Select the action (\*.atn), then click "load" button.

## STEP 4

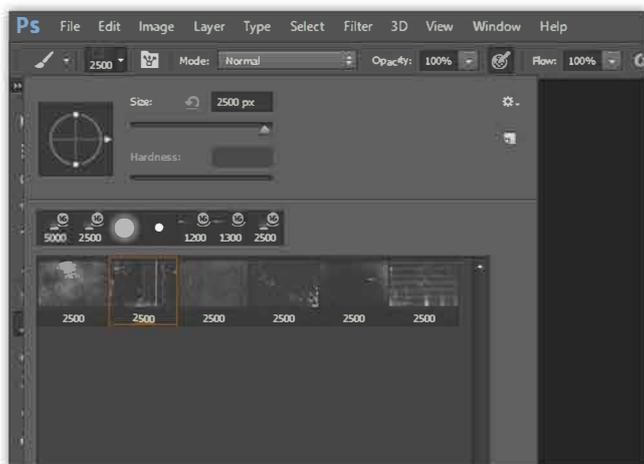

First select the layer on which you perform actions. Go to action palette, open the actions folder (1), select the action you want to run (2), click play button to run the action (3). Have fun!

# HOW TO INSTALL THE ACTION

## STEP 5

Go to the panel brushes, select Tools (1), then load the brushes(2). Choose the location where the brushes are stored and click load

## STEP 6

Select panel brush, adjust brush size, color (I use white) and make a punch
