

Thank you for purchasing my item. **Please, rate this item.**

Industry – Brochures Print Templates that has been designed with the metallurgical and welding industries in mind. The package includes tri-fold brochures, bi-fold brochures, but also flyers and roll up banners.

Install Fonts:

Before starting work, make sure you have the correct fonts on your computer, if you do not have the required fonts, install them:

- Manrope – <https://fonts.google.com/specimen/Manrope>

Adobe InDesign:

Start Adobe InDesign and edit the template to the desired effect. To add a photo, select the gray element (signed "**your image here**") and move the photo using **Drag and Drop** or from the **File – Place** menu (**Ctrl + D**). Editing texts is also very easy, you need to **double-click** on the text frame and change the text.

Adobe Photoshop:

Start Adobe Photoshop and edit the template to the desired effect. To add a photo, **double-click** on the layer with the gray element (signed "**your image here**" – "**Layers**" panel) and a window in Photoshop will open, to which you should move the photo on the basis of **Drag and Drop** or from the **File – Place** menu. The text can be easily edited by **double clicking** on the text layer in the "**Layers**" panel.

Affinity Designer and Publisher:

Open the template in Affinity Designer/Publisher. To add an image, double-click on the gray element which is labeled "your image here". Then place your image via **File – Place** or simply **Drag and Drop** to your documents. Adjust your photo by dragging it. To edit text, **double-click on the text frame** and edit it.

Affinity Photo:

Open the template in Affinity Photo. To add an image, double-click on the gray element, which is labeled "**your image here**", and a new program window will open. In this window, place your image via **File – Place** or just **Drag and Drop**. To edit text, **double-click on the text frame** and edit it.
