PROCREATE BRUSH STAMPS

IDEAL FOR **ILLUSTRATIONS** AND **AGING** DESIGNS!

VINTAGE EDGE STAMPS

FOLDS • CREASES • GRUNGE EDGES

THE QUICKEST, EASIEST WAY TO ACHIEVE AN AUTHENTIC RETRO LOOK!

ABOUT THE BRUSHES

Thanks for buying Vintage Edge Stamp brushes! The pack is compatible with Procreate 5.0 and above.

Illustrator and Affinity Designer versions are also available at artifexforge.com.

The pack contains the following brushes:

15 Grunge Edge Brushes.

6 Short Grunge Edge Brushes.

20 Fold and Crease Brushes.

6 Bonus Book Cloth Edge Brushes.

Please read on to find out how to load and use the brushes...

UNZIPPING THE BRUSHES

Before you can load the brushes you must unzip the brush files. Follow these steps:

ON A COMPUTER (MAC):

1. Double-click the '.zip' file.

2. Locate the file or folder inside and move it to the location of your choice.

ON A COMPUTER (PC):

1. Right-click on the '.zip' file.

2. Click 'EXTRACT ALL' and follow the instructions.

IF YOU DON'T OWN A COMPUTER:

Depending on your OS you may need a third party plug in to decompress a zip file on Ipad.

LOADING THE BRUSHES INTO PROCREATE

Once you've unzipped the brush file you can install it by following these steps:

1. Transfer the '.BRUSHSET' file/s from your computer to your Ipad. Using a cloud service such as 'DROPBOX'.

2. On your Ipad Open the Dropbox app and locate the folder into which you saved the '.BRUSHSET' file.

3. Tap the '.BRUSHSET' file and click the '...' icon.

4. Click 'EXPORT', 'OPEN IN...' and then tap 'COPY TO PROCREATE'.

5. Open Procreate. Your new brush set will appear at the top of the brush library.

Please note: if you have MacOS 10.11 or newer, you can use 'AIRDROP' to transfer and install the brushes in one go.

IMPORTANT: Don't use Procreate's brush panel import function - this is designed for single brushes only and won't work with '.BRUSHSET' files.

DRAWING WITH THE BRUSHES

To draw with the brushes simply select a brush from the 'BRUSH LIBRARY' and draw.

Click here to open
the brush library

To adjust the size of the brush stroke move the slider as shown below:

Move the slider to
adjust the brush
stroke size

Choose the brush color by clicking in the circle on the right-hand, top of the screen, as circled below. Do this before you draw.

Click here to access
the brush color
options

Because these are stamp brushes they're fixed at one angle but it's super easy to rotate them after drawing. I'd recommend placing each brush stroke on it's own layer and then using the transform function to rotate the line.
