PROJECT EDITION

Fonts - download all fonts from the links above and install them on your computer before you edit the projects.

Color - Use"OVERLAY_COLOR_EDIT" layer (double click on it) to edit colors (using hue bar which is in pop up window opening after double clicking this layer)

Font Installation - Basic Info

WinXP - Start > Control Panel > Appearance and Themes > Fonts (from the 'See Also' panel at the left) > In the Fonts window, select the 'File menu', and choose 'Install New Font'

Vista - Start > Control Panel > Appearance and Personalization > Fonts > Click 'File', and then click 'Install New Font.'

Win7, 8 and 10 - Unzip the fonts first. Fonts cannot be installed if they are zipped. Right click the font file and select 'Install.'

MAC OS X - First, close any open applications. Newly installed fonts may not appear in your font menu if you ignore this step. **Install using Font Book:** - Double click the unzipped font file and Font Book will open a preview of the font. - Click "Install Font" at the bottom of the preview. **Manually install:** 1. Open Finder and click the Go menu at the top of the screen. 2. While in the Go menu, hold down both the Alt/Option and Shift keys on your keyboard to reveal the hidden link to the Library folder 3. Navigate to your Fonts folder: /Users/Your_Username/Library/Fonts 4. Drag and drop the unzipped font files into this folder.

Search the internet if you need more help with fonts.

Remember - every PSD file contains "Remove this layer" layer. Just delete this layer to see entire design.

Good luck in your business / Viel Glück in Ihrem Geschäft / Buena suerte en tu negocio
