Tones Supreme

QUICK GUIDE ⚡
Lightroom Set

Hello!

Thank you for purchasing this preset pack!
Here is a quick guide of using the presets easily.

DESKTOP GUIDE:

1. Open Lightroom classic CC and go to the develop module. On the left panel, look for the presets panel and click the small '+' icon next to it.

2. Select import from the dropdown menu, a new window will appear for you to find the zip file. simply find the zip file and select it, lightroom will import the presets.

3. Also you can simply drag the preset files to lightroom.

MOBILE GUIDE:

1. For lightroom mobile version, unzip the package using any app that exctract zip files

2. Open lightroom mobile and click on add photos

3. Browse your phone to find the images extracted and load them

4. Once loaded open the image and press preset down in the settings bar

5. Press the 3 dots on right and press create preset, give it a title and bingo!
the preset is saved and you can apply it to any image
by opening the image and go to presets and press the preset saved.
