Let's become friends!

It's very easy to use this action:

1. Install action into your Photoshop:

Simply double-click (or drag and drop into your Photoshop) **.atn** file

2. Install Brushes into your Photoshop:

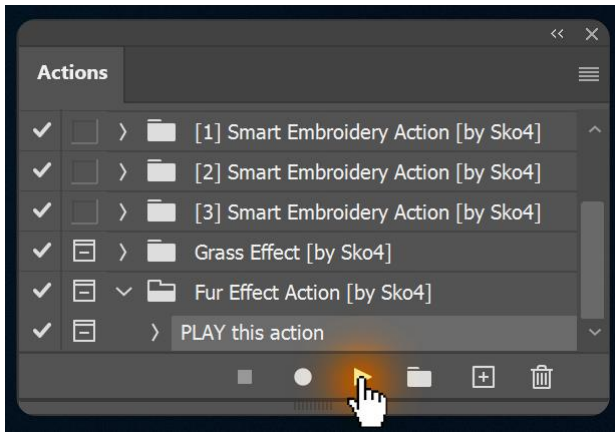

Simply double-click (or drag and drop into your Photoshop) **.abr** file

4. Create new .PSD file or open existing project. Choose layer or layer group (Layers can be called by any names.)

5. Go to the actions palette

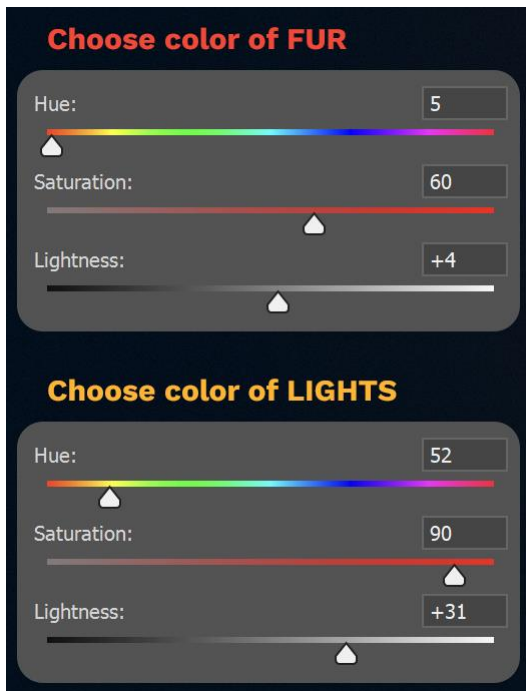

If the actions palette is not visible, go to “Window”, then click “Actions” in the dropdown

Find in Actions palette **Fur Effect [by Sko4]**

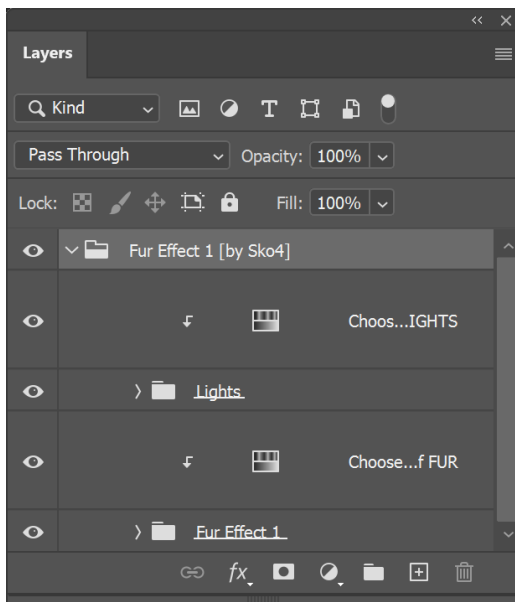

With needed layer selected click the 'Play' button and wait for the action to complete.

You can play action in the same .PSD file multiple times.
So you can make fur compositions with many elements

Choose colors of fur
and lights when
action make a pauses

You can also choose
these colors after
action stops

Enjoy results! And good luck with your projects!
