

The Flash - Lightning Photoshop Action

Hi,

Thanks for purchasing The Flash - Lightning Photoshop Action.

Everything is very straight forward. I have tried to make the item as very easy to use.

ABOUT The Flash - Lightning Photoshop Action

This Photoshop Action transform your photos into professional cloudy flash lightning effects. Highly detailed result, a lot of possibilities to easy customize and improve.

This action is specially made for photographers, graphic designer & artists.

The action has been tested and working on Photoshop (English versions) CS3, CS4, CS5, CS6, CC, CC2014, CC2015, CC2015.5, CC2017, CC2018, CC2019, CC2020, CC2021+.

If you are not using the English version, you can switch your Photoshop in English, play the action and

return to your language back.How to do it – <https://www.youtube.com/watch?v=GJAiu5W2gLE>

RULES & RECOMMENDATIONS

1. use photo sizes between 2500–3500px
2. use photo resolution between 72-300dpi
3. use RGB and 8bit color mode in Photoshop
4. use English versions of Photoshop CS3, CS4, CS5, CS6, CC, CC2014, CC2015, CC2015.5, CC2017, CC2018, CC2019, CC2020, CC2021+.
5. use your photo as the background (Layer -> New -> Layer from Background)

HOW TO USE THE ACTION

Highly recommended to see video tutorial before using the action!

<https://youtu.be/Gui20g2rCk4>

Or Follow this instructions

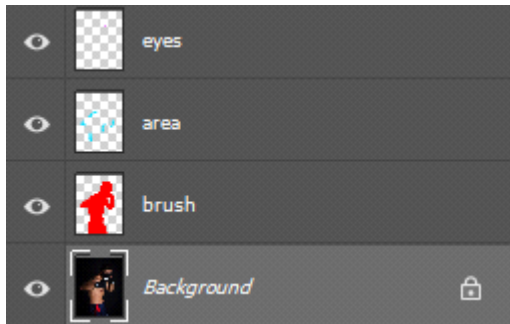

1. Install the Action, Brushes & Patterns (see instructions above)
2. Open your photo. Make sure your photo as the background (Layer -> New -> Layer from Background)
3. Create a new layer above the background layer and called it "brush". Rename the layer to "brush"

(Important: all letters must be lower case). To do that, double click on layer name and type "brush". Don't forget to do it!!!

4. Again Create a new layer above the "brush" layer and called it "area". Rename the layer to "area" (Important: all letters must be lower case). To do that, double click on layer name and type "area". Don't forget to do it!!!

5. Again Create a new layer above the "area" layer and called it "eyes". Rename the layer to "eyes" (Important: all letters must be lower case). To do that, double click on layer name and type "eyes". Don't forget to do it!!!

6. With the "brush" layer selected, brush (use any color brush) onto the area of photo, the "area" layer selected, brush (use any color brush) onto the area of photo where you want the flash effects & the "eyes" layer selected, brush (use any color brush) onto the area of photo for your eyes flash effects.

7. Click play button on action panel. That's all!

8. You can also customise and improve the result.
