ABOUT ME

This is the first thing on your resume that an employer sees. Let's make it short, concise and unique! Highlight your skills, expertise, achievement and show employers what assets you will bring to the role you are applying for. And, of course, just only give real information. In fact, many employers usually only give each resume about six seconds of their time. So you should take advantage of the professional profile to catch their attention.

Dear Ms. Korina

A letter is a message written for a variety of purposes, from friendly to formal. They can help maintain bonds between friends, especially if they're far apart. Letters are also used by professionals to communicate their concerns. In some schools, kids are encouraged to write letters to Santa for Christmas. There are also letters given by school administrators to the students' parents or guardians. Senectus et netus et malesuada.
