# RETROART - PHOTOSHOP ACTION how to use?

How to play Action:

Brush Tool Opacity and Flow must be set to 100%

1. Open photo (easy way simply drag & drop in photoshop)
2. Be sure your Background layer is locked, if not click (Layer/New/Background from Layer)
3. Create new layer named brush and isolate area of interest
4. Place any shape and rename to shape
5. Place lines and rename layer to line
