

# Help Guide

After uploading the file,  
find the files in PSD format and open them in Adobe Photoshop.

*\*All editable layers are selected with red and green*

In the Layer window,  
double-click on the layer with the name **YOUR DESIGN HERE**.  
( 1st in the Layers window )

Place your text or design there in the order you want

After all changes, click file + save and return to the main psd file.  
Your changes will be reflected on the model..
