**HELP PHOTOSHOP**

BY PITCHLOOK STUDIO

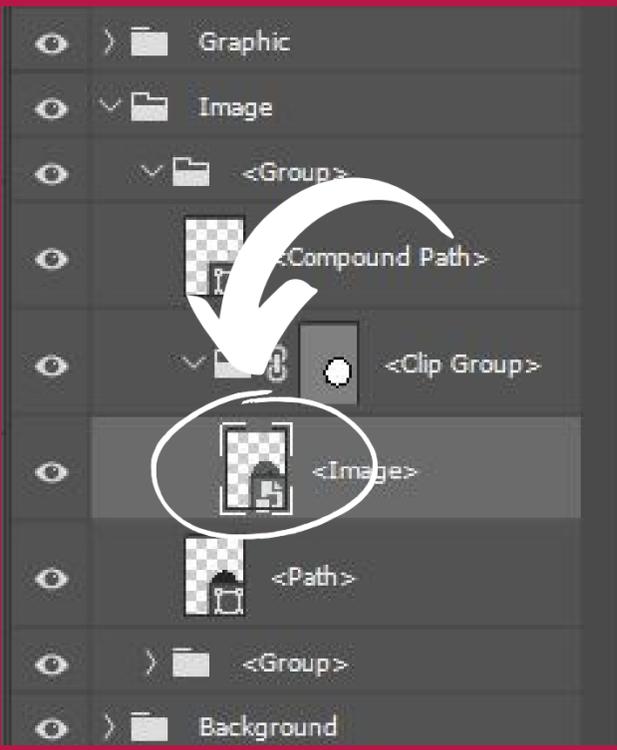

# HOW TO CHANGE IMAGES

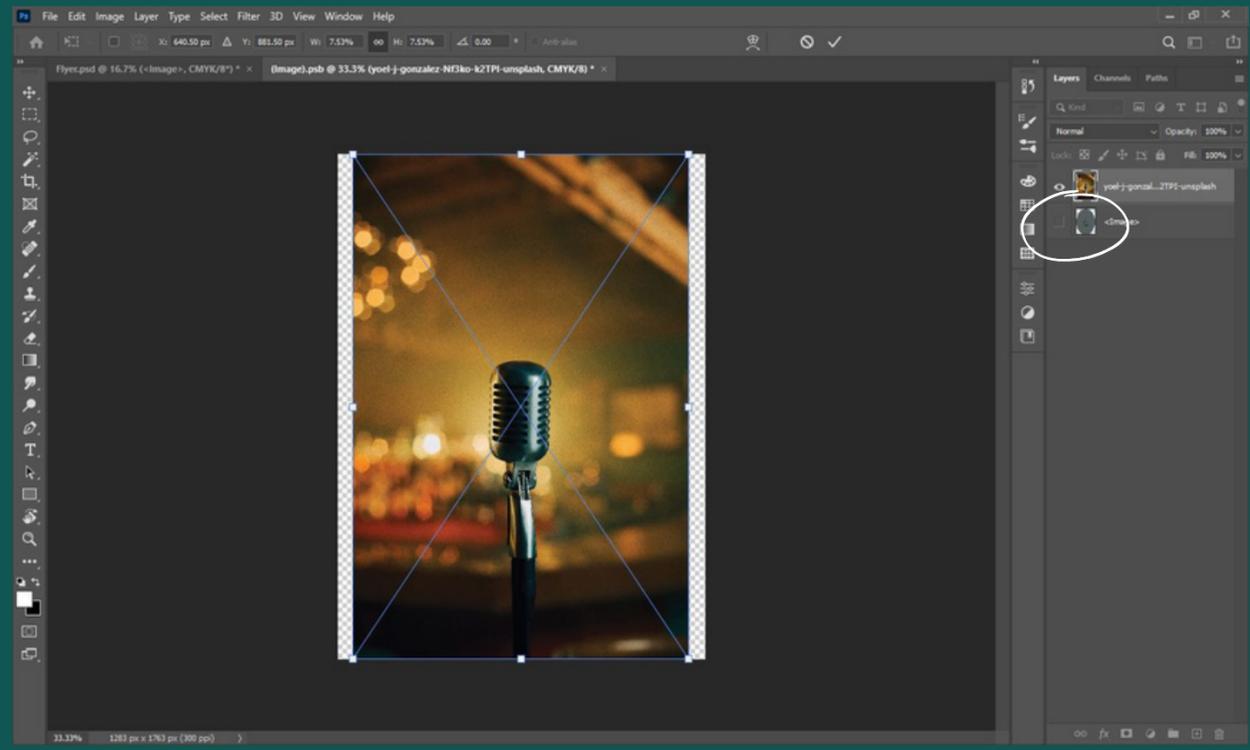

GO TO FOLDER "IMAGE"

This screenshot shows the Photoshop Layers panel with the 'Image' folder selected. A white arrow points to the 'Image' folder, which is highlighted in a darker shade. The panel shows a hierarchy of folders: Text, Graphic, Image, <Group>, <Compound Path>, <Clip Group>, <Image>, <Path>, <Group>, and Background.

DOUBLE CLICK "IMAGE" LAYER

This screenshot shows the Photoshop Layers panel with the 'Image' layer selected. A white circle highlights the 'Image' layer, and a white arrow points to it, indicating a double-click action. The panel shows a hierarchy of folders: Graphic, Image, <Group>, <Compound Path>, <Clip Group>, <Image>, <Path>, <Group>, and Background.

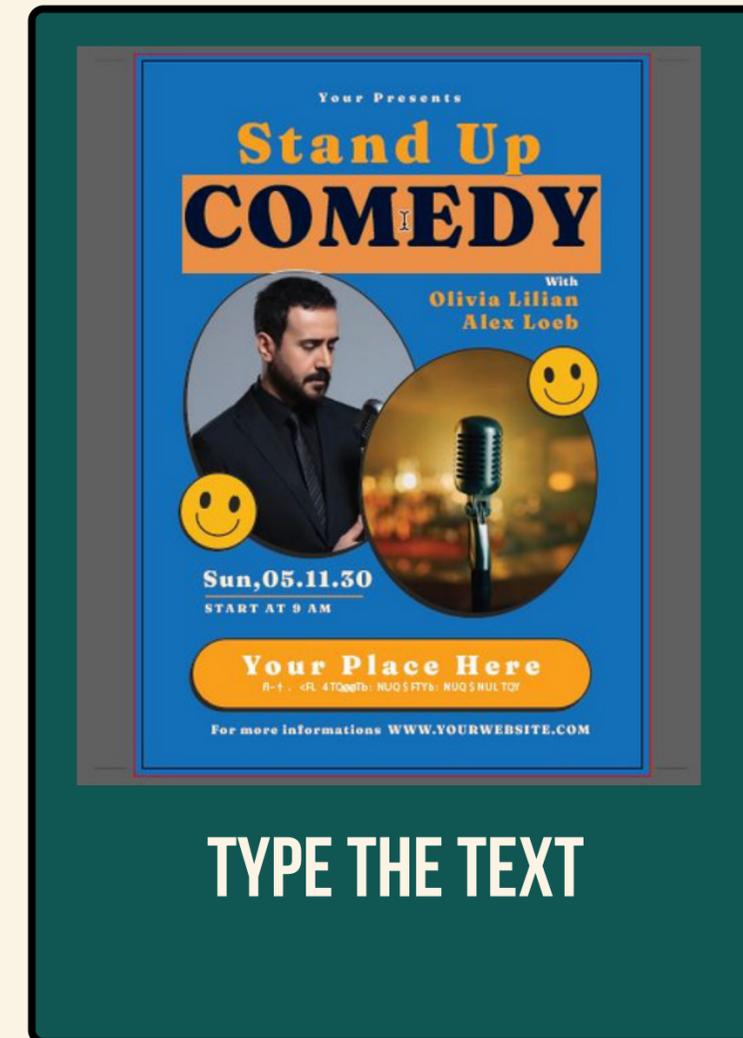

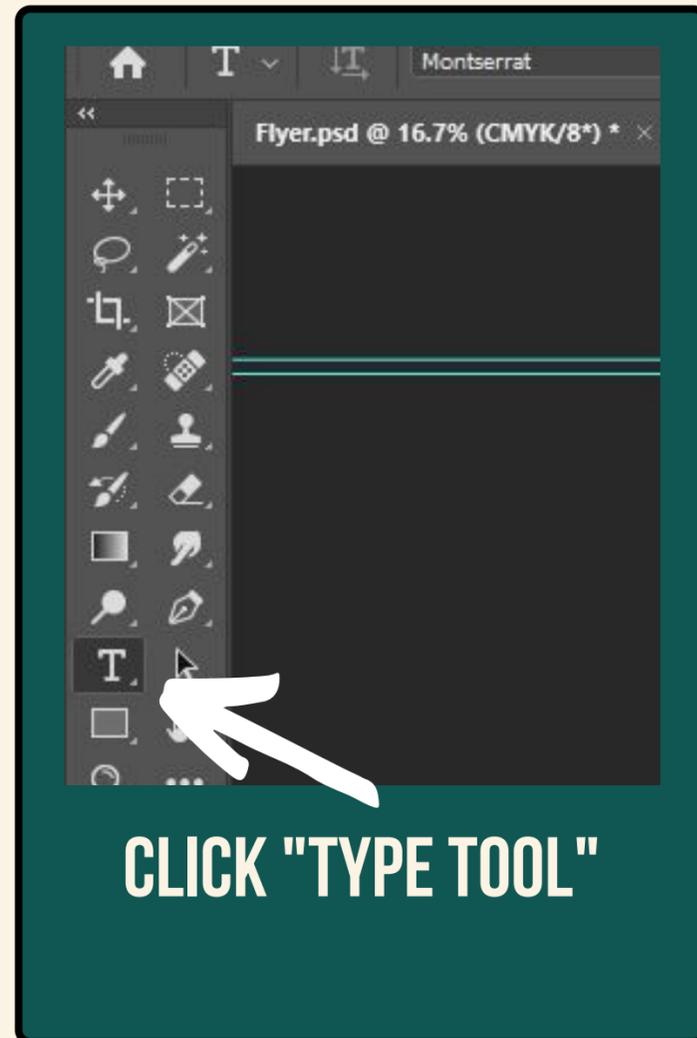

HIDE THE PLACE HOLDER, DRAG & DROP IMAGE FROM LIBRARY TO PHOTOSHOP, ADJUST THE IMAGE SIZE >> ENTER SAVE AND CLOSE THE PHOTOSHOP TAB

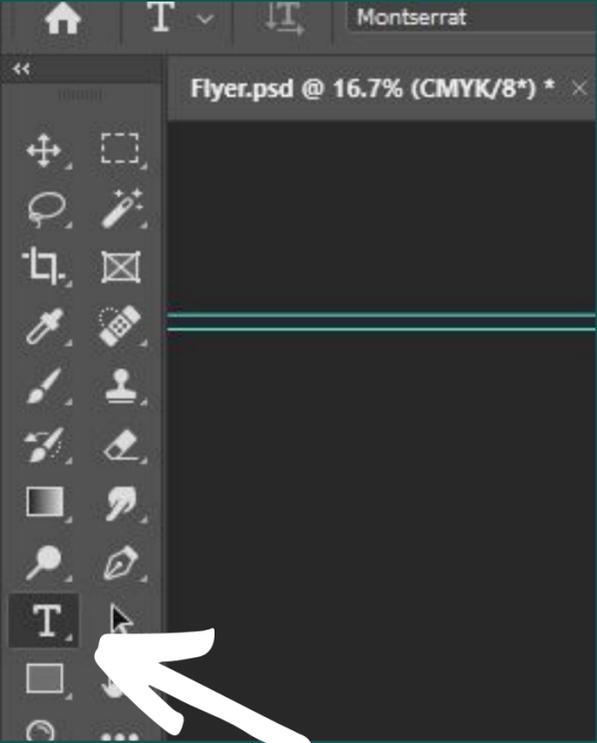

This screenshot shows the Photoshop workspace with a placeholder image of a microphone. A white border and a double-click arrow indicate the placeholder is being activated. The Layers panel on the right shows the 'Image' layer selected. The workspace shows the image being placed into the placeholder.
