How to

Hi There!

Thank you for purchasing my product.
Fantasy Movie - Photoshop Action

How to Install Photoshop Actions

Here's a quick breakdown of how to install Photoshop actions.

1. Download the action and Right-click to Extract it from the compressed .ZIP file.
2. Open Adobe Photoshop and go to Window > Actions to access the Actions panel.
3. Click on the Actions panel menu button (top right) and select Load Actions.
4. Load the action with a .ATN extension.
5. Repeat this process to load more actions.

How to Use Photoshop Actions

Now that your actions are available in Photoshop, using them is as easy as 1, 2, 3.

1. Select the layer you want to apply the action to.
2. Select the action you want to use from your action panel.
3. Hit the "play" button down at the bottom of the panel.

Thanks for your time.

Create stunning photos with easy-to-use Photoshop actions!
