Help Guide

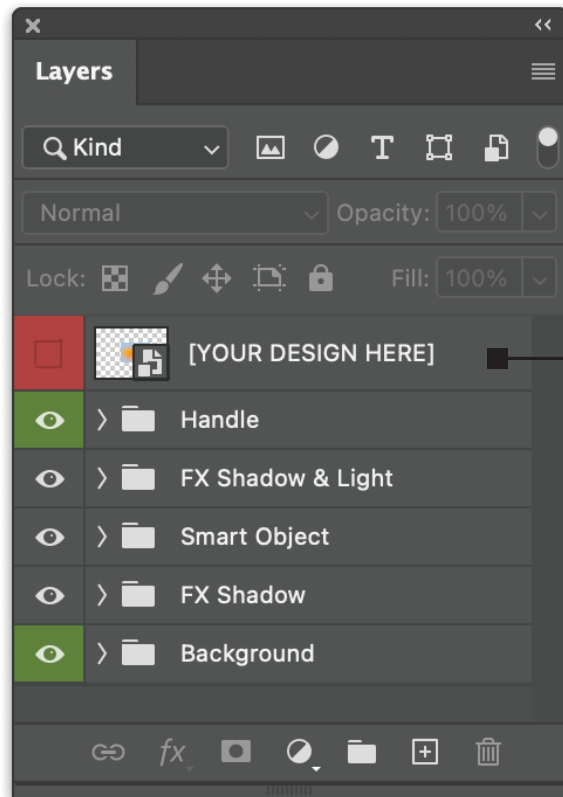

After uploading the file,
find the files in PSD format and open them in Adobe Photoshop.

*All editable layers are selected with red and green

In the Layer window,
double-click on the layer with the name   YOUR DESIGN HERE.
(1st in the Layers window)

Place your text or design there in the order you want

After all changes, click file + save and return to the main psd file.
Your changes will be reflected on the model..
