Lisence

Mockup file that you have downloaded can be used for commercial and private project. You can change the design standards we made by adding your work to this mockup.

This mockup is copyrighted and protected by law. You may not distribute or or sold as PSD files (or in any other open format that is available) it either offline or online and on any site.

Tutorial

This mockup uses the smart object technique in Photoshop. The easiest way to use: (1) Open mockup files; (2) Then select the 'design' folder; (3) Double click on the smart object in that folder; (4) Enter or made your design; (5) Save smart obecjt.

For more details, you can see tutorials using mockups and how smart object working. (on youtub*)

F.A.Q

- ***Can I use your mockup on my website for a private or company portfolio?*** Of course. As long as you modify our files on your computer and publish them on your website as non-editable image files (JPG, PNG, GIF, etc.), there are no limitations for using our mockups.

- **Can I collect a fee from my clients for modifying a PSD file and sending it to them as a JPG file?** Of course. We actually encourage you to use our files to make a profit
