## Add Your Design

1. Open an item group folder
   from the layer panel in Photoshop.
2. Double-click on the smart-object
   Or the visibility of the indicative
   layer is marked in green and
   a new document opens to
   add your design.
3. Copy and paste your design or
   File > Place Embedded…
   and select
   your design from your computer
   and place it in the document.
4. Save all changes and close
   the document. Changes will then
   be applied to the mockup.

Change Background Color

Items with can be color edited with
a few clicks. Open the item's Background
folder and double-click on the Change
Color (*Item*) solid color to open
the Color Picker panel. Choose your color
and hit OK.
