Install Presets

You need to install the presets which are the brushes and the action files.

To install the brushes, open the brushes panel from: Window >> Brushes. then from the top right corner on the panel, click on the menu icon, then click on Import Brushes, next select **Inka Brushes.abr** file from the downloaded folder and import it.

To install the Action, open the Action panel from: Window >> Actions. then from the top right corner on the panel, click on the menu icon, then click on Load Actions, next select **Inka Action.atn** file from the downloaded folder and import it.

Apply effects

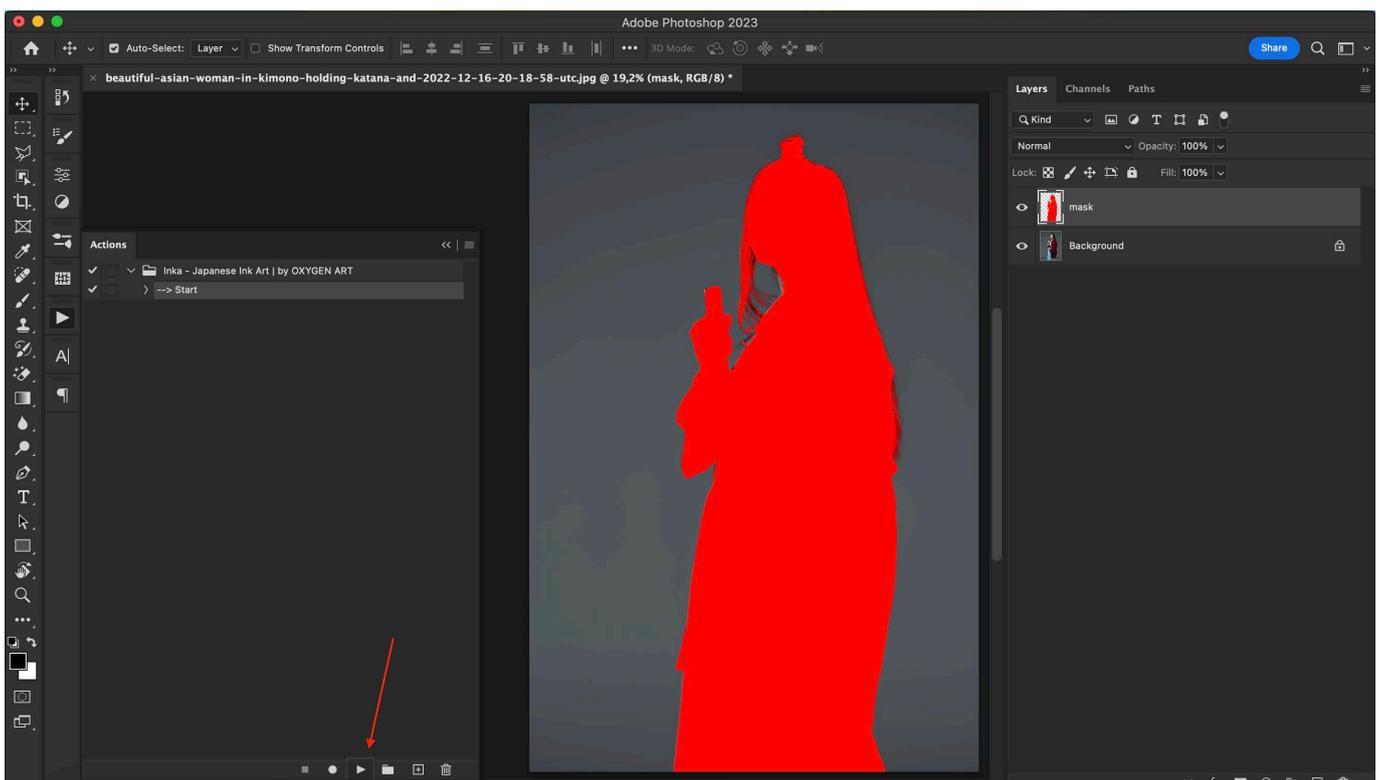

To apply the action you need to open your image first. for better result try to use an image with high resolution, and the image width or height should be minimum 3000px.

The **INKA** effect requires a mask layer, this mask will help the action to add the effects on the focus person or object in your image.

Create a mask by select the person or the object in your image using any selection tool. and extract this mask inside a layer call it " mask " with lowercase letters.

Next, open Actions panel, then select **INKA** action sets under the name: **Inka - Japanese Ink Art | by OXYGEN ART**.

Open the action set and select the action --> **Start**, the from the bottom on the panel, click on Play Button to run the action, the just relax and let **INKA** action will do the rest of work.

Video Tutorial

We have created a video tutorial that will guide you on how to install and use the action, as well as how to edit the final results.

If you like the effect, don't forget to give it a 5 stars review, this will help us a lot.

Thank You!
