Documentation

Business Card Design Template

Thank you for purchasing our design template. All items in this pack are optimised to be user friendly and easily editable. In order to edit any of these files you will need Adobe Illustrator & Adobe Photoshop.

This pack includes 1 Illustrator, 1 Photoshop, 1 EPS template. Changing text, image, logo and colors is quite straightforward so you shouldn't have any issues with that. You will of course need basic Photoshop or Illustrator knowledge, but if you have any additional questions, just message me and I'll be more than happy to help!

Font

Fonts I used in this pack are not included in this download, but they can be easily downloaded from Google.

Abril Fatface
Click on the URL link to download this font https://fonts.google.com/specimen/Abril+Fatface

Golos Text
Click on the URL link to download this font https://fonts.google.com/specimen/Golos+Text

Click on the above mentioned URL link to download the font	(Windows) Right click then choose Install	(Mac) Double click to install the font

Download and install the font before opening our photoshop or Illustrator file. If you've already opened Photoshop or Illustrator file, but missing the fonts, just close the file and install the fonts.
