

HOW TO USE VECTOR TEXT EFFECT

LET'S
PRINT

- 1** Every ZIP archive contains these files: AI, EPS, a separate file containing styles for the "Graphic Styles" panel and "Help" folder.

36-school.ai

36-school.eps

help

36-graphic_styles.ai

- 2** The "help" folder contains a text file with information about the font and a PDF file with instructions.

36-school.txt

Instruction.pdf

- 3** Open the file with the .AI extension

36-school.ai

36-school.eps

help

36-graphic_styles.ai

4

This is our vector text effect. You may have purchased other effect. The principle of working with a text effect is the same for all products.

5

Notice that in the .AI and .EPS file the effect have been added to the "Graphic Styles" panel.

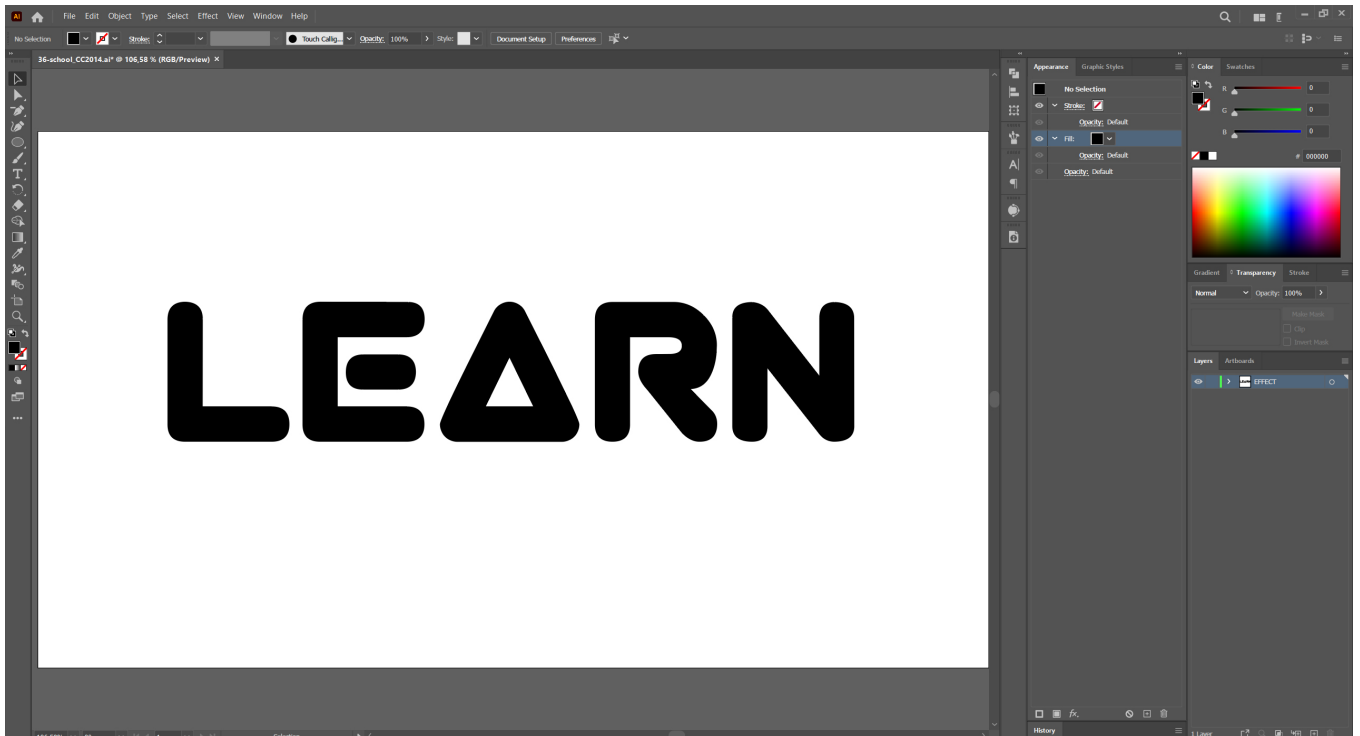

6 Just double click on the text with the effect.

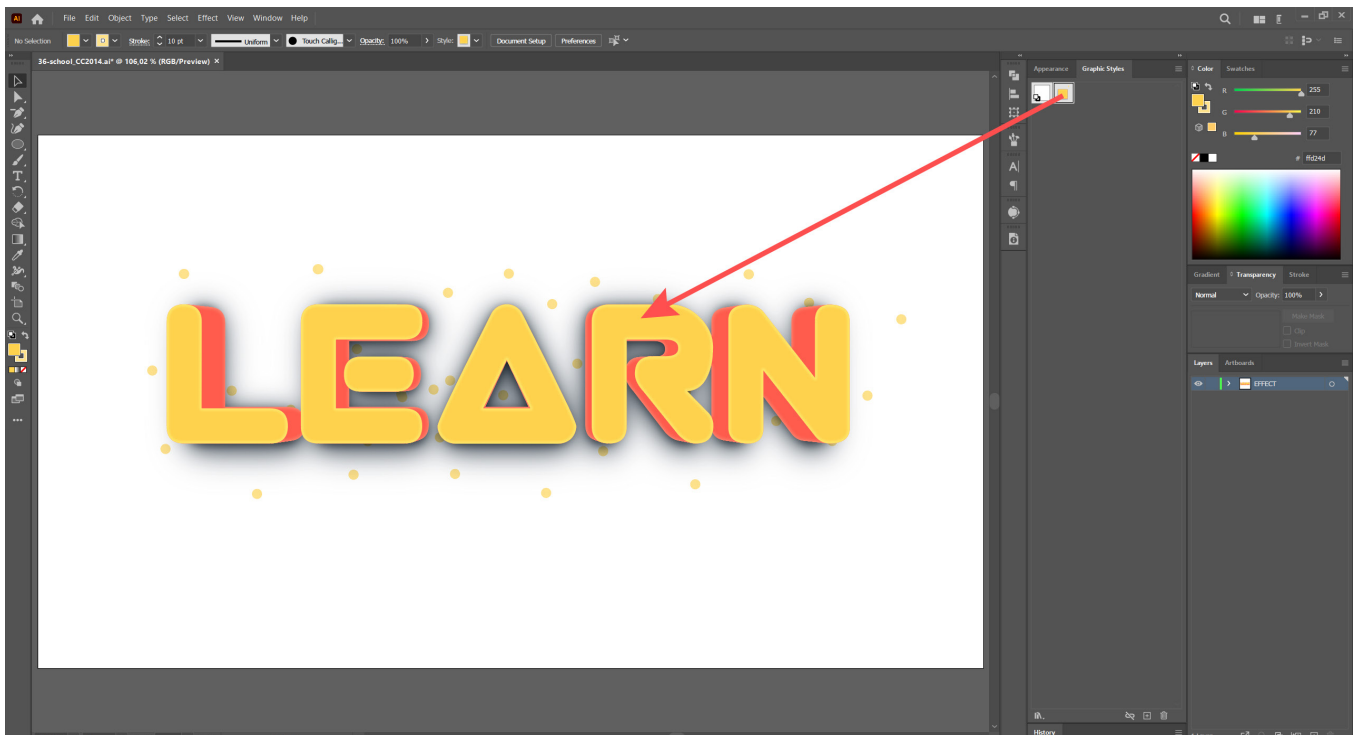

7 Type your text and the text effect will be applied!

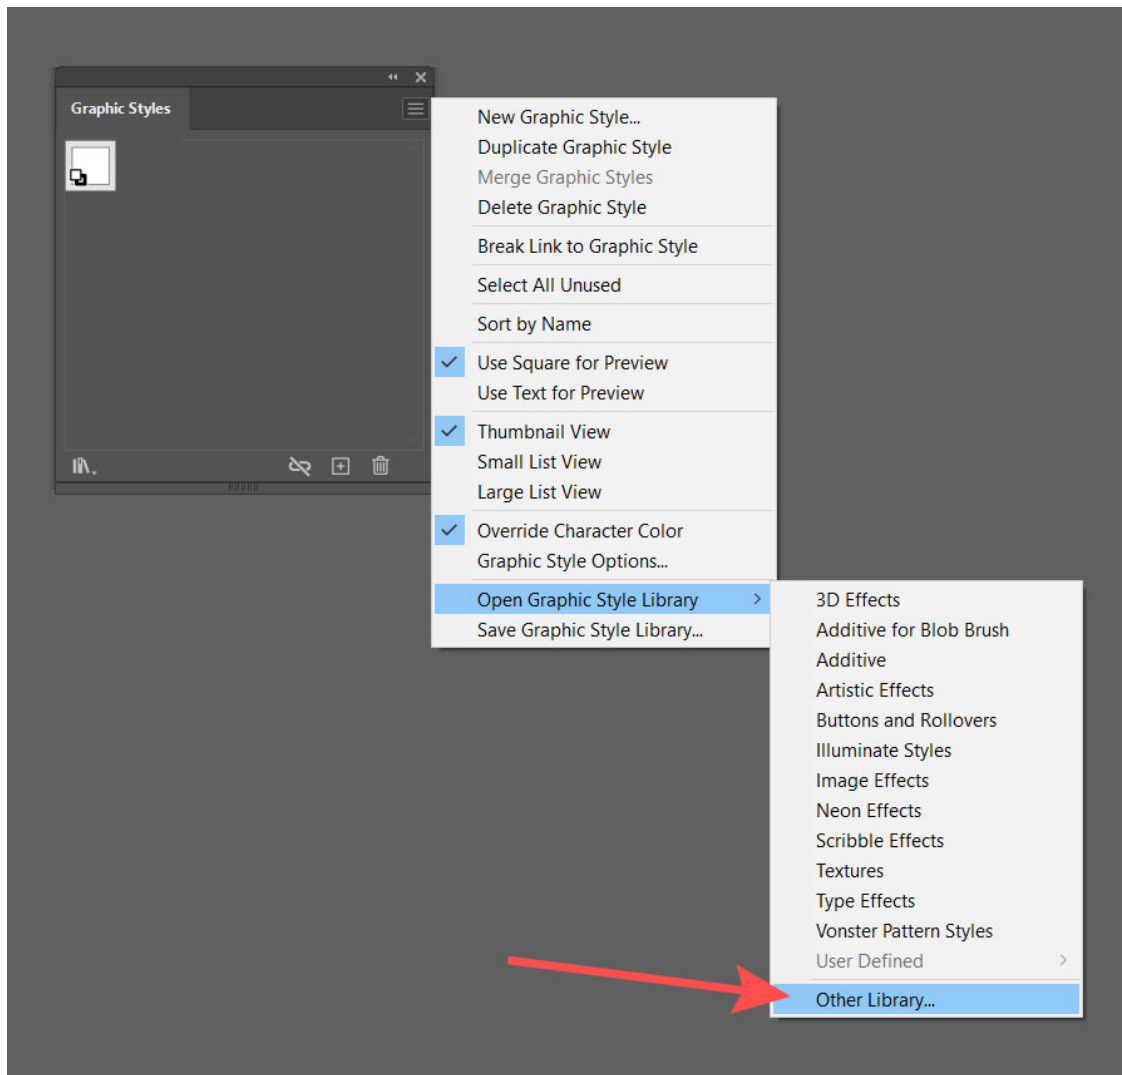

8 There is a second way. Type any text.

9 Select the text and click on the effect icon in the "Graphic Styles" panel. Great!

- 10** If there is no effect in "Graphic Styles", you can add one. Find the "Graphic Styles" panel. Click on three horizontal lines -> Open Graphic Style Library->Other Library.

- 11** Find the "Graphic Styles" file in the purchased product.

36-school.ai

36-school.eps

help

36-graphic_styles.ai

- 12** The selected effect will open in a new window.

- 13** Repeat steps 6,7 to apply the effect to any text.

- 14** Instead of an .AI file, you can use an .EPS file.

- 15** Watch video tutorial <https://youtu.be/-s7h45oSY30>

Thank you for your attention!

Best Regards, Gusev Aleksandr
