3. Open your image (Layers can be called by any names.)

Use RGB, 8Bit

4. Go to the actions palette

If the actions palette is not visible, go to “Window”, then click “Actions” in the dropdown

Find in Actions palette **Retro Phone Effect [by Sko4]**

5. Brush area

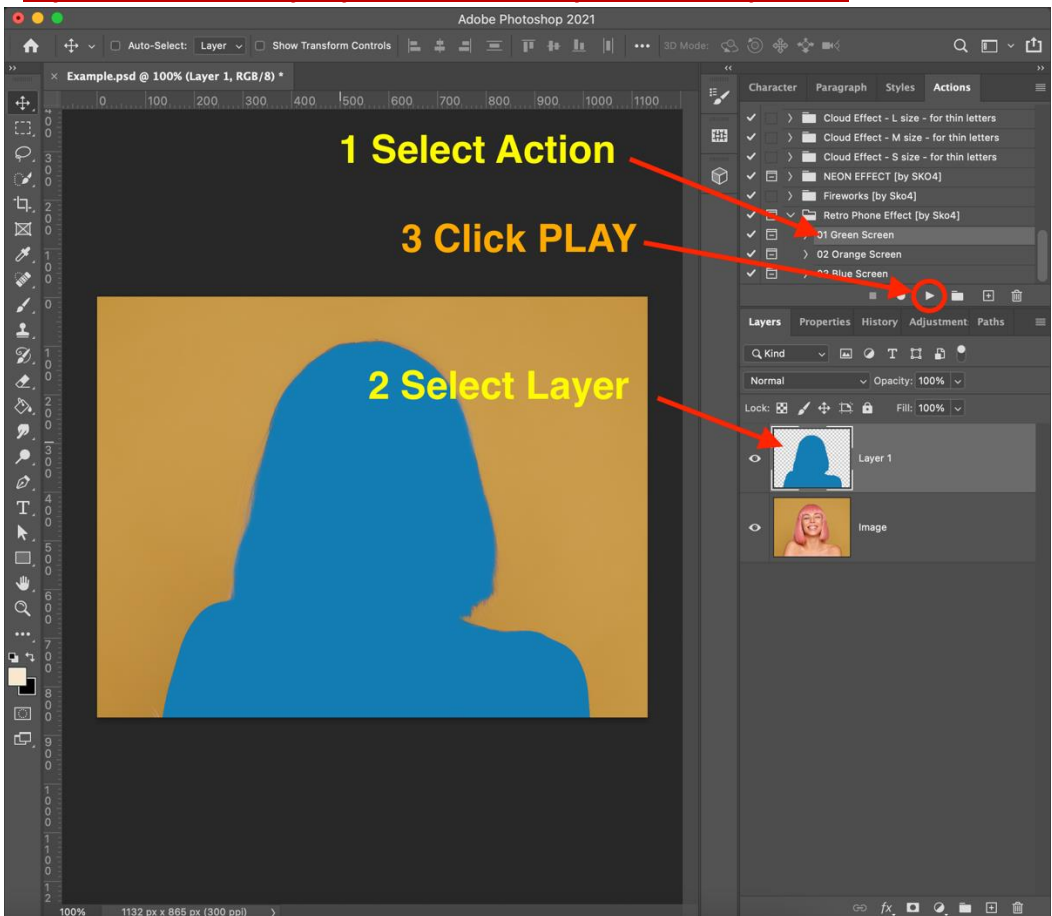

Create a new layer above the photo layer. It can be called by any name.

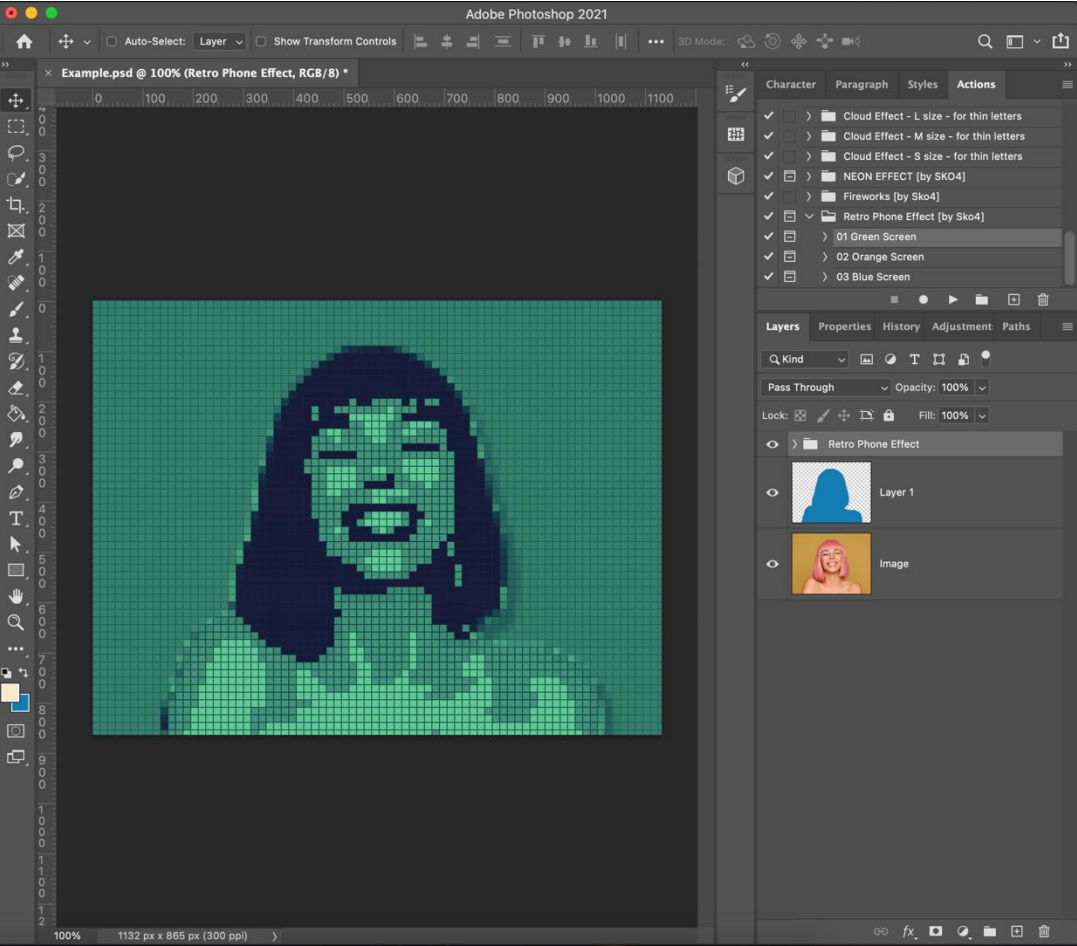

With the new layer selected, brush/trace the areas of your photo that you want to apply the effect to.

Make sure that brush layer is above your image and brush layer is selected.

Layers can be called by any names, but the layer order is important.
