

# Manual Import to Lightroom CC

## DESKTOP PRESETS SYNC

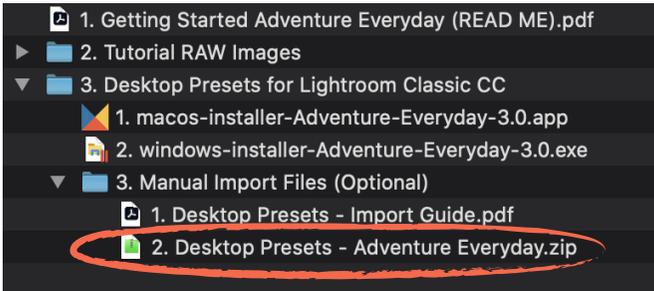

---

### STEP ONE

Unzip your purchase download, and then open Lightroom CC. In the top menu, select **'File'**, then **'Import Profiles & Presets...'** in the submenu.

### STEP TWO

Navigate to the **'3. Manual Import Files (Optional)'** folder, and then double-click the **'2. [profile pack].zip'** file to import.
