TWH Collective

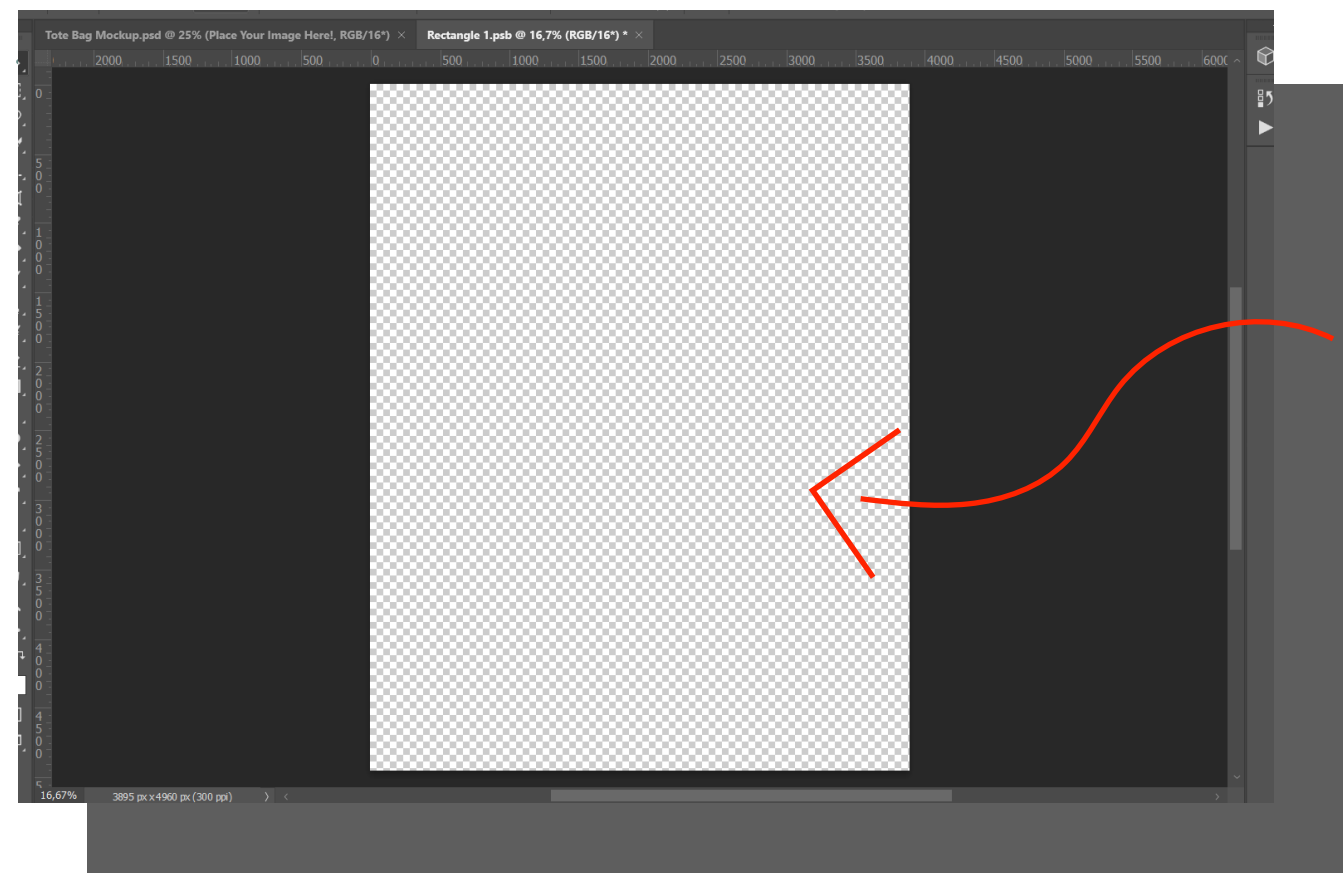

STEP 1

In this mockup template files, at the top there is a green Smart Object layer to replace your photo or design. Double click the smart object icon, you'll be taken to a new tab where you can interact with the smart object.

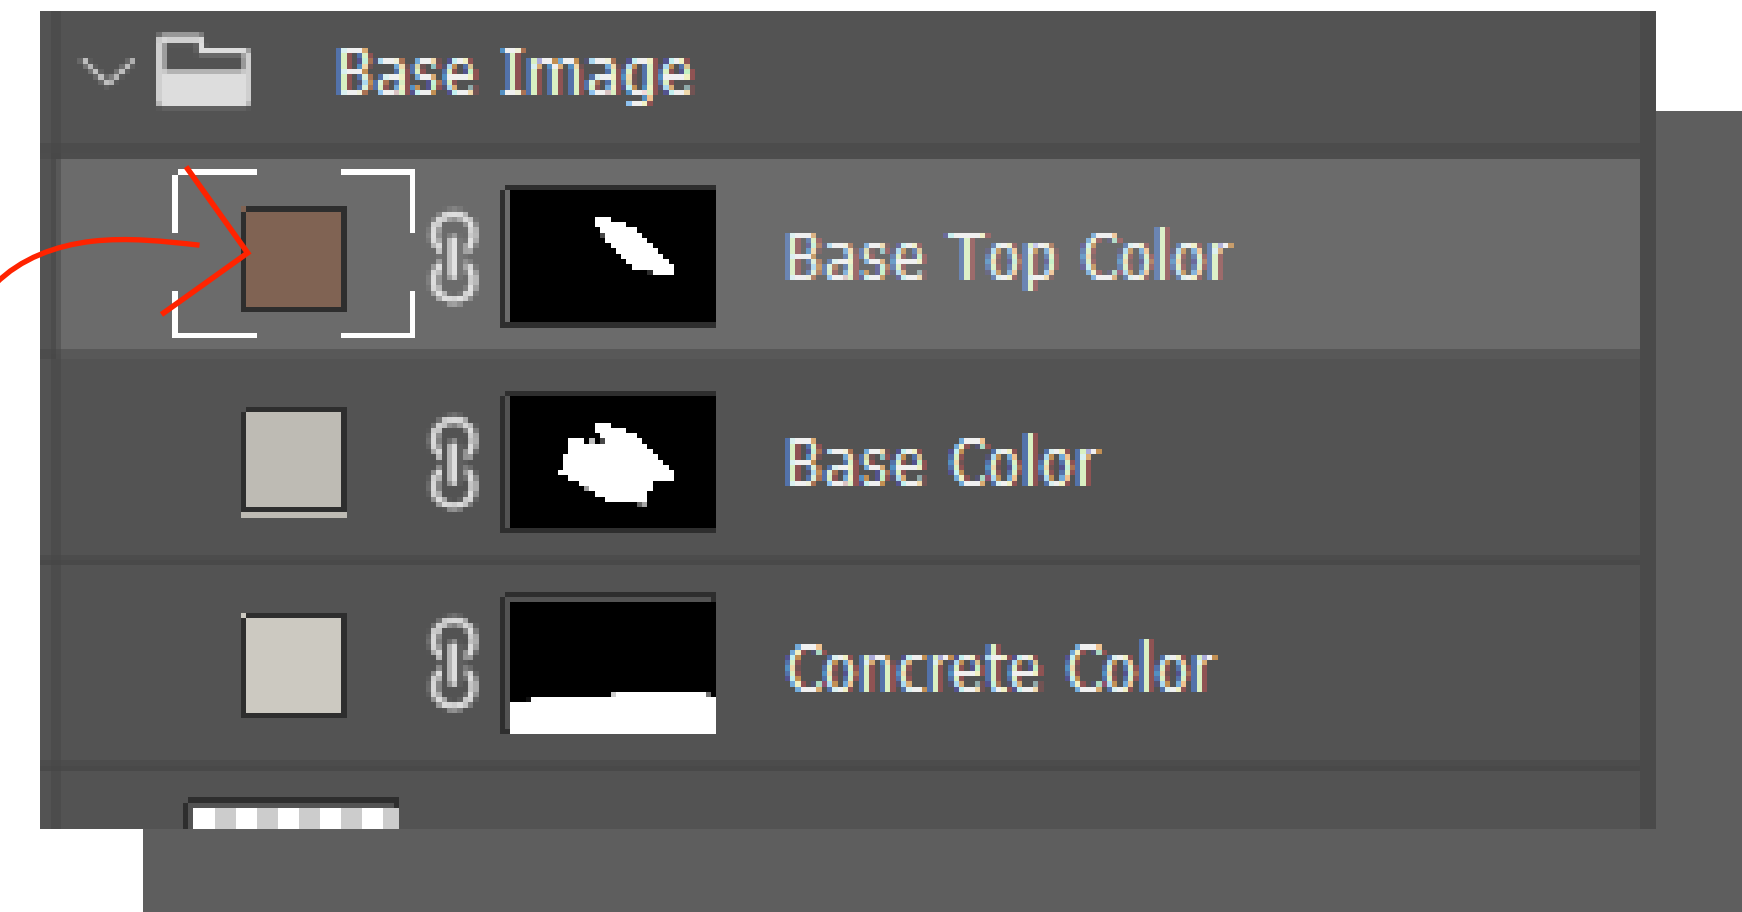

STEP 2

Now, drag and drop your design/photo on this placeholder.
Adjust your design or photo to size of the placeholder.

STEP 1

To change the color, open the object layer and object color that you want to change, double click the “Color” and change it for your need.

STEP 2

When you finished choosing your color. Click “OK” to apply the color to the object/background. The color will change to the color that you want.
